

VAN **H**OOOL

EXQUI.CITY

BRT solution

vision

The world of public transport is becoming more challenging, both economically and ecologically. With the Exqui.City, Van Hool offers a realistic solution to the demand for safer, greener, more efficient and economic urban transport, combining the flexibility of a bus with the punctuality of a light railway. A truly exquisite way of travelling.

seats 44
floor area 17,2 m²

seats 35
floor area 20 m²

seats 29
floor area 22,2 m²

24

seats 61
floor area 19,4 m²

seats 42
floor area 26 m²

seats 28
floor area 30,5 m²

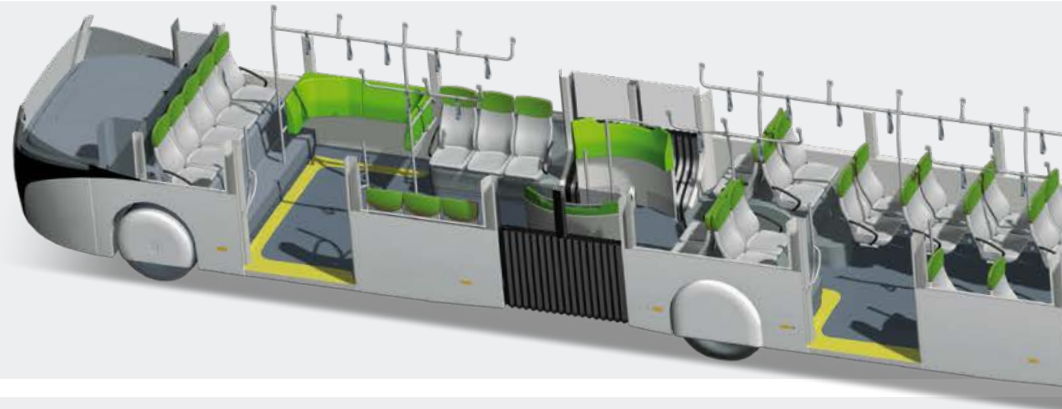

EXQUI.CITY

BRT solution

design

The Exqui.City's timeless and elegant design clearly distinguishes itself from traditional buses. It emphasises smooth and safe travel through the modern urban environment.

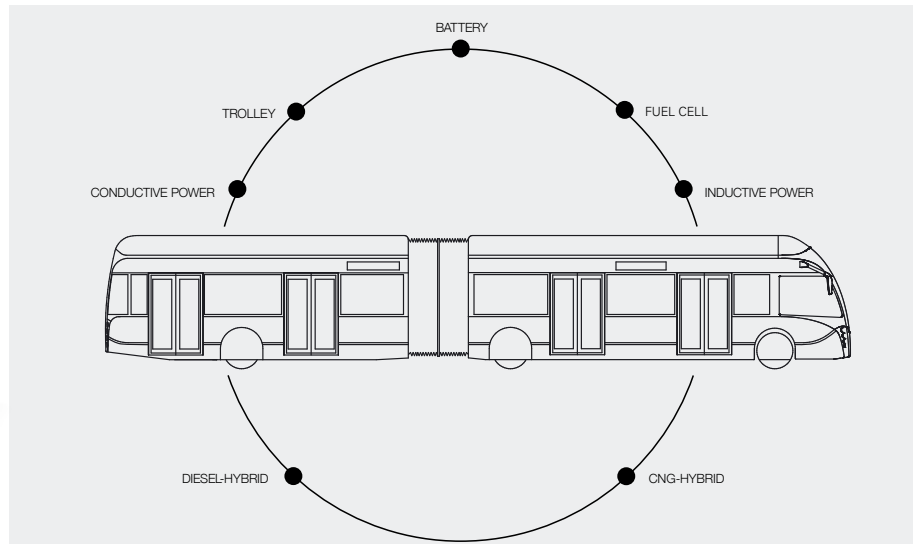

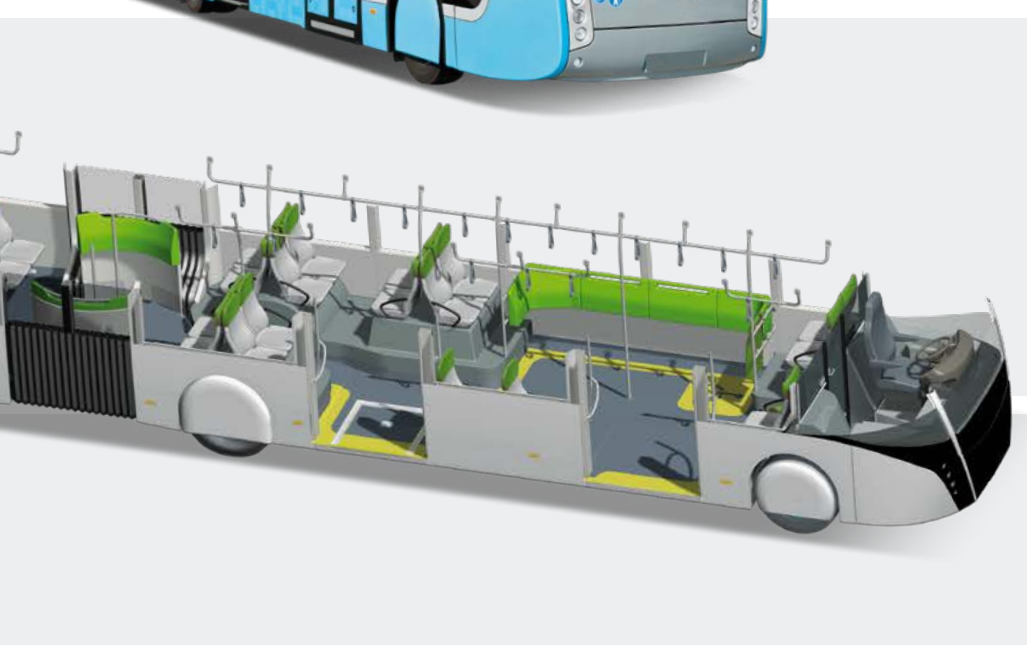

Fluid lines, diffused lighting, and an advanced ergonomic interior are all crucial to making the trip a relaxing experience for the passengers. Spacious entrances and exits, a low floor, and wide corridors throughout the vehicle secure the optimal passenger flow.

- full length floor
- four double doors
- maximum use of floor space
- modern lighting
- innovative airconditioning system
- increased passenger leg room
- fits all brands of seats

technology

The heart of the Exqui.City is the **Multi Propulsion Platform**, designed to accommodate the latest and greenest alternative propulsion technologies.

VANHOOL

Elegance and efficiency in transport.
